Providing Gainful Supportive Employment For Consumers of Mental Health Services Since 1991
10/09/08

ARE YOU LOOKING FOR CASUAL BUT CONSISTENT EMPLOYMENT?

WANT TO GET BACK INTO THE WORKFORCE AT A PACE YOU ARE COMFORTABLE WITH?

SSCOPE has opportunities for workers, men and women, beginning this fall.

SSCOPE Inc. (Self Starting Creative Opportunities for People in Employment) was incorporated as a non-profit organization in 1991. We provide gainful casual employment and support for consumers of mental health and related services. We offer ongoing services to the community and have some new programs (indoor and outdoor) beginning later this year.

Workers will be able to develop their own employment development plan and work with us throughout to follow through.

You can work with a crew, or primarily on your own, with the help of a Support Worker. As part of our enhanced supported employment activities, we will also offer assistance and training and opportunities to work with employers in the community or assistance with self employment.

SSCOPE operates primarily Monday to Friday, with the possibility of some work on weekends from time-to-time. You can participate with as little as 1.5 hours per week of work.

If you'd like more information, we 'd be pleased to talk to you further. You can call our office at **987-6300** or contact the Exec. Director at 987-6302. Email: sscope@mts.net

The first step to becoming a SSCOPE member and worker, is to provide us with a completed application form. You can pick one up at our office, have one faxed or emailed to you or you can download it from our website: <http://www.sscope.org/news>

After we receive your application form, we will contact you and set up a face-to-face interview at our office.

We look forward to hearing from you
